

Lymphoma

what's that?

Lymphoma is a cancer of the lymphatic system, part of our immune system that fights disease and infection...

Every 2 hours another Australian is diagnosed with lymphoma...

Every 6 hours another life is lost to lymphoma... the same as skin cancer!

Lymphoma can be beaten...

Lymphoma is the 3rd most common cause of cancer in children?

Some signs and symptoms...

- ✓ Fever
- ✓ Sweating, especially at night
- ✓ Reduced appetite
- ✓ Weight loss
- ✓ Generalised itch
- ✓ Persistent tiredness
- ✓ Short of breath, cough

Lymphoma is growing in incidence in the western world, yet many Australians don't know what it is or the signs/symptoms...
